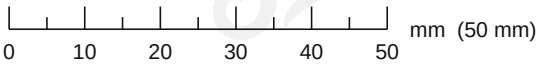
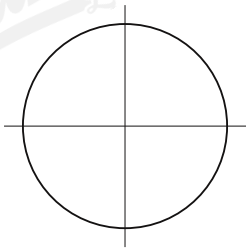
Guia de medidas

Apoie a roda da miniatura, de frente, sobre cada círculo. A medida certa é a do círculo que a roda cobre por inteiro, sem sobrar nem faltar. Em dúvida entre duas, escolha a menor.

1. Confira a escala da impressão

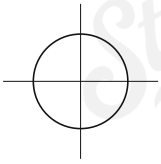
Imprima em tamanho real (100%), sem "ajustar à página". A barra deve medir 50 mm na régua e a moeda de R$ 1 deve encaixar no círculo.



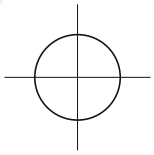


moeda de R$ 1 (27 mm)

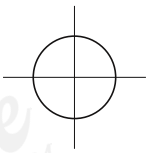
2. Compare com a sua roda



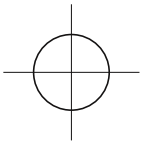
12,5 mm



11,5 mm

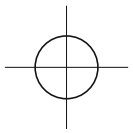


10,5 mm

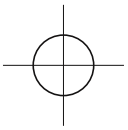


9,7 mm

9 mm



8,3 mm



8 mm

A maioria das miniaturas de linha básica (Hot Wheels, Maisto, Matchbox, Majorette etc.) usa a medida 10,5 mm.
